

**Neagle Non-Puished.**  
Yesterday was the time appointed for the hearing of the case of the State of South Carolina, ex rel. the Attorney General, against the several members of the House and the Senate, upon the rule to show cause, made by Judge Melton several days ago, why they should not be restrained from the collection of the taxes, as recently ordered by the Attorney General.

The action of the new administration, and the rule made absolute, and the injunction order granted, which we published elsewhere in our columns. The people are at rest for a season, and no taxes can be demanded of them until the Legislature has met. The action of the new administration, and the rule made absolute, and the injunction order granted, which we published elsewhere in our columns. The people are at rest for a season, and no taxes can be demanded of them until the Legislature has met.

The scheme, which was undoubtedly concocted by Neagle and Parker, in connection, perhaps, with a few other partisans, to gobble up the larger part of the income taxes for the payment of certificates, printing bills, etc., is thus effectually balked for the present, and probably for all time. This is all very good, and exceedingly gratifying, so far as it goes.

We understand that he is backed by the Administration, and that he is true, he is not only holding his own.

It is promised that there will be a large reduction in the amount of the tax. We hope so. If there is not, then what has been done amounts to almost nothing. The mere referring of the matter to the Legislature, without the payment of the taxes, would be of but little benefit to the people. In order to make any marked reduction of the tax, the Government must be able to pay the taxes.

There is scarcely an appropriation hitherto made by the General Assembly which has not been largely expended for the public funds are kept well in hand and the cash is always ready to meet proper demands. There are the Lunatic Asylum and the Penitentiary, for instance. Fifty thousand dollars are expended for the Lunatic Asylum, and the Penitentiary, for instance. On last Saturday the residence of the widow of the late Mr. F. W. Wind, near Hill, thirteen miles from the city, near Hill, thirteen miles from the city, near Hill, thirteen miles from the city, near Hill, thirteen miles from the city.

A disastrous fire occurred at Elliott Wednesday, about one o'clock, by which a good deal of valuable property was swept away in a few minutes.

Centrally located on the island was Wright's store, and near by his large gin house, connected by a small underground, which ran the grist mill.

The store in which the trading was done, was a well stocked store with dry goods, groceries and such articles as are usually found in an establishment of the kind, all valued at from four to five thousand dollars. The machinery cost nearly \$5,000, and the gin \$2,000. The entire loss is estimated at \$20,000.

When the alarm was given, one of the attacks of the establishment ran out of the dwelling and saw a cloud of smoke arising from the gin house, which was burning. The fire was caused by a pipe in the pocket of one of the female hands, and another, by a match which was ignited by the long candle in the room.

From the Macon Telegraph we get the following additional particulars of the disastrous fire at Milledgeville on Friday morning.

The fire broke out in a cellar under the stock store of O. B. Eason, who lost a stock of goods valued at \$3,000, upon which there was no insurance. There being scarcely any means of defense against fire, the flames had their own way, and swept everything before them.

Seven Years Old in Public Favor. As will be seen by reference to our advertising columns, Mr. J. N. Robinson, of Charleston, has been for seven years the owner of the famous Soluble Pacific Guano. Our people have had seven years favorable experience of this Fertilizer, and seem to prize it more and more every season.

To Persons Building, or Intending to Build. To all such, we would recommend a careful perusal of the card of Geo. S. Hacker, of Charleston, in another column. From Hacker's some most of the doors, sashes, blinds, etc., that are used now-a-days. His work is so universally known and admired as to require no further words of commendation from us.

How They Treat the Colored People in New England. The managers of the New England Women's Christian Association Home have refused to admit a respectable colored girl to the institution, were reported to the Board of Directors, but have been sustained, the board refusing to take any action in the matter. The colored women from the Home "as a matter of Christian expediency," much feeling exists in Hartford vicinity over the matter and result.

No person, as far as the Philadelphia Age, appears to have noticed the philosophical fact that the term "carpet tapper" is a literal translation of the French phrase "homme de sac," which is defined in the dictionaries as rogue, thief, and so forth.

**THE ADVERTISER.**  
Edgfield, S. C., Nov. 28, 1872.

The South Carolina Legislature. The new Legislature met at Columbia, the capital of the State, Tuesday, S. J. Lee, colored Radical, of Aiken, was elected Speaker of the House. The inauguration of the Governor will be postponed until Monday, on account of the illness of both Gov. Scott and Cleaves, the Lieutenant Governor elect. The Radical candidates for U. S. Senator are Scott, Patterson and Ellis (col). The Conservatives have no candidate in the field.

**A Word About National Finances.**  
A subject of popular discussion just now is Secretary Boutwell's proposition to inflate the greenback currency of the nation to the extent of \$40,000,000. The power to expand or contract the volume of the currency will be a power so fraught with ruin and disaster to the country in its administration, that it ought not to be entrusted to the hands of any man, or any set of men. And certainly Mr. Boutwell's antecedents, either as a man, a politician, or a financier, are not such as to make us willing to confide in him a trust so momentous in its consequences.

**Two Splendid New Railroads in South Carolina.**  
Two splendid new Railroads in South Carolina are to be completed before the beginning of the new year—one near one—near one. To wit, the Port Royal Railroad, running from Augusta to Port Royal harbor, and thence to Beaufort; and the Air-Line Road leading from Atlanta, Ga., via Greenville and Spartanburg, to Charleston, S. C. The Port Royal Railroad belongs to the Georgia Central Road, while the Air-Line Road, if by Northern R. R. Companies. Port Royal, Beaufort, Greenville and Spartanburg, in our State, are expected to expand and flourish by means of these Roads.

**A Trial of 50 Years.**  
The New York Observer has passed through the ordeal, and starts out anew on the second fifty years with a larger list of readers and more numerous friends than ever. Such a steady course of prosperity is unexampled, and inspires confidence. We heartily rejoice in the great success of a paper which has always advocated those sound principles that underlie the foundations of society and good government. Orthodox in the truest sense, both in Church and State, its influence is always good. We see its publishers propose to give to every subscriber for 1873 an appropriately embellished Jubilee Year-Book. Those who subscribe will have no cause to regret the step. \$3 a year. Sidney E. Morse & Co., 37 Park Row, New York.

**Beach Island Lands.**  
We again call the attention of the citizens of Edgfield, Aiken and Barnwell Counties to the sale of Beach Island lands advertised in the Advertiser, to be sold in the City of Augusta next Tuesday, (December 3), at public sale, at the lower Market House.

**The Survivors Association.**  
We publish the following notice (says the Columbia Phoenix) at the request of the officers of the Survivors Association, and earnestly call to the attention of all members of the Association the importance of a full attendance. The object of the Association is to give credit and honor to all who held in respect and veneration the memory of the soldiers who died for what we considered a right and noble cause. Let every District send a full delegation and the annual contribution requisite to aid in the collection and publication of the records, which preserve the names of those who were killed or wounded in the cause.

**The Banner District for O'Connor and Moss.**  
Edgfield has the honor to be a majority district of the County in the State, and, as a synonym, we trust, of saving grace did the same thing, for O'Connor, the voter for Moss was 390; for O'Connor, 29.

**The Day of Bad Women.**  
Victoria Woodhull and Tennie C. Claflin, the infamous creatures who so boldly preach and practice free-love in New York, are now in Ludlow Street fall, for publishing in their dirty paper that Henry Ward Beecher and Mrs. Theodore Tilton lived in illicit intercourse. They cannot give bail, and it is thought they will ultimately be sent to the Penitentiary. The foremost champion, a sweet art truly—men and women!

**Pine Land for Sale near Augusta.**  
Mr. A. Piquet, an old and prominent citizen of Augusta, advertises his large and valuable plantation, 7 or 8 miles from the city, for sale. See Mr. Piquet's card in another column. He sends us a list of the land, which will all can see by calling for it in our office.

**The Anderson Intelligence.**  
The Anderson Intelligence learns that the levy made by the county commissioners of Anderson, to meet the expenses for the ensuing year, is at the rate of one and a half mills upon the dollar, which is the lowest rate of taxation since reconstruction. A considerable surplus of the county treasury enables the commissioners to annul the hardship this year by levying so small a sum for county expenses. Probably no returns of this kind can make so good a showing.

**The Town of Marion has been gerrymandered.**  
The town of Marion has been gerrymandered one mile added all round the edge and it now has a Republican majority of twenty-eight.

**In his next report the Secretary of War will urge that the numerous disarmed Southern arsenals be sold.**  
Two additional arsenals, one on the Pacific and the other on the Atlantic coast, will, with that at Rock Island, be all in the service. Military expenditures, taxpayers will be pleased to know, are a descending scale.

**On the 17th there was an extensive fire at Abbeville, C. H., and now one of the grocery houses of that town is advertising "Parched Coffee" for sale.**

**The gin house of Mr. H. L. Elliott, situated seven miles east of Winnsboro, was burned last Tuesday evening, together with about thirty-five bales of cotton.**  
The fire was caused from negligence.

**Reuben G. Young, of Alabama, sentenced to ten years in the Albany Penitentiary, has been pardoned by the President on the petition of citizens.**  
The policy seems to be to pardon prisoners when their neighbors mass.

**At Worcester, Mass., two men have been held to \$30,000 bail for hiring a negro to assassinate a State constable.**  
The negro was also arrested. The constable was called to the scene, and "assassination" in Massachusetts. In South Carolina it would be a bad case of "Ku Kluxism."

**The Louisiana Sugar Crop.**  
The New Orleans Picayune, of the 19th inst., says:  
It is now beyond all question that the late cold spell has done immense damage to the sugar cane. As far down as the parish of St. Charles, we are reliably informed, there was ice on Friday and Saturday nights quarter of an inch thick. Even in the parish of Plaquemine the weather was cold, and the cane is in a parlous condition. In the parish of Iberville the cold has done much damage to the cane. The cane is in a parlous condition. In the parish of Iberville the cold has done much damage to the cane. The cane is in a parlous condition.

**Mr. Dutton.**  
Mr. Dutton, as what I have to relate will doubtless be of interest to some of the readers of your valuable paper, I am constrained to ask a short space in its columns.  
Yesterday I had the pleasure of attending the closing exercises of Cold Spring Academy, situated in Hyde Township. This school during the past year has been under the care of Mr. Wm. A. Sanders, of Chester, S. C., who is a graduate of Emory College, at Oxford, Miss., and an able and successful teacher.

**Prizes were given to the following students:**  
Miss Annie Matthews, for highest standing in Rhetoric; Miss Annie Jennings, in Dictionary; Miss Hattie Watkins, in Grammar and Dictionary; Miss Lizzie Matthews, in Grammar; Master Lee Trotter, in Arithmetic; Miss Annie Trotter, in Geography; Master Jacob West, in spelling.

**Palatka boasts of a negro man who has made nine bales sea island cotton and one hundred and fifty bushels corn.**  
He bought his land on credit, has paid for it, and is now enjoying a handsome competency.

**Building Interests.**  
We again call the attention of our many readers to the advertisement in another column, of Builders' materials and supplies. To those in want of any articles in this line, we say, and for our circulars and price lists from the Great Southern Factory of these goods, or of resins of New York account, and closed quick at 175. Receipts, 1,038, and sales \$35 bales.

**Have you ever tried the Bouquet Cologne?**  
If not, call at G. L. Penn & Son's for a bottle, and you will never regret it.

**HYMENEAL.**
